

SessionAlert!™

The great new product everyone's talking about

NEW!

Amazing features!

- ReelManager™ software - predictive analysis with simple speed graph tells you when to make an excuse and leave - before you embarrass yourself!
- LiveWarning™ proximity scanner keeps people from encroaching on your personal space
- PratNav® gives direction and distance information at a glance

Imagine Sessions where nothing ever went wrong. Where you could focus on your playing. Where you never had to worry about being upset.

Now you can do all this and more with *SessionAlert!*™

Just look at the amazing features and you'll see why it's this year's top buy for musicians who are serious about having fun.

Voted Best Product in April by International Muso Magazine - try it and you'll see why!

Imagine no more - the future of music is here
